Product Catalogue

Shenzhen Staranb Communication Technology Co., Ltd.

Smart wearable OEM/ODM
manufacturer

COMPANY PORFILE

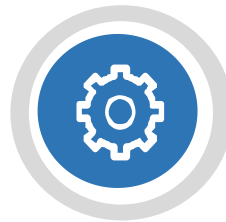

Established in 2017, Shenzhen Staranb Communication Technology Co., Ltd is an Innovative high-tech company, dedicated to R&D, manufacturing, and sales of 3C electronics. Staranb's products focus on the health monitoring, sports recording, as well as Cellular networks.

With a strong team, Staranb is capable of ID Design, PCBA R&D, firmware production, cloud data collection, analysis & application, so as to provide a one-stop service for OEM & ODM. It's annual production capacity is more than 8,000,000 units. We will use our wisdom and hard work to have customer satisfaction for our prominent quality and affordable products.

Current staff 300⁺

Employees High-quality staff team

OUR ADVANTAGE

OEM/ODM

Fully customisable

Certificates and honours

Product certificates are FCC, CE, ROHS, PSE, the company through the SGS verification

Independent design

We have 20 professional design staff

Factory

With over 300 employees and over 4,000 square feet of factory floor space

Quick Reply

24-hour response

Quality Inspection

More than 6 testing processes

Production capacity

Daily production over 10K

Service Market

Products have been sold to more than 50 countries worldwide

ST-HX36 CALL SMART WATCH

No need to plug in the card;
download apps at will.

Support online download of popular apps in the market,
one-click installation, and experience the smooth experience
of a mobile phone.

ST572 Health Smartwatch

Measurement of blood components

Blood component measurement: accurately captures indicators, quickly feeds back status, scientifically safeguards health, convenient and reliable.

Note: This product is not a medical device, and its measurement results and data shall not be used as medical basis.

● Health Function

Heart Rate/Automatic infrared blood oxygen measurement,HRV Lorentz scatter diagram / Blood Glucose testing / ECG/ Body composition analysis/Body temperature measurement/Sleep tracking/Uric acid /women cycle SOS / AI-GPT

Emotional fatigue measurement, senses state, quantifies fatigue, alerts, aids adjustment, sustains vitality.

● Detailed information

ITEM	SPEC
Chipset	ZK5690G
Case Material	Zinc alloy
ECG chip	High precision 500HZ- Goodix 3228T

STP700 Health Smartwatch

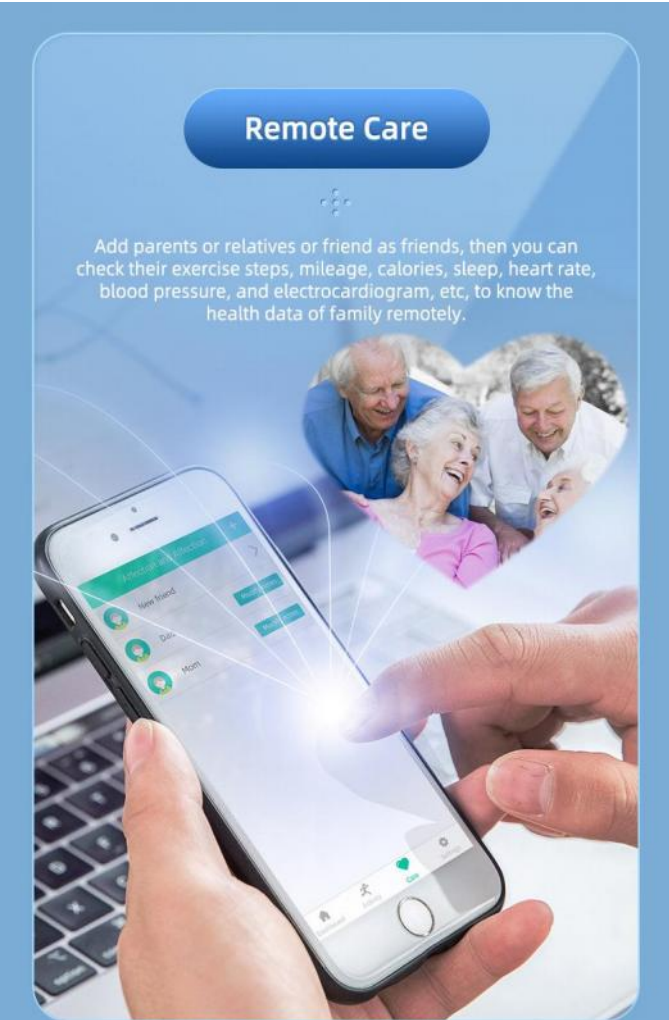

PPG+ECG detection

Wearing wrist electrocardiogram testing function, intelligent and portable for real-time measurement, using electrocardiogram sensing chip, according to the I-lead standard, using superconducting powder metallurgy technology to collect the electrocardiogram waveform (ECG) of the heart, just like the detection principle of the hospital's electrocardiogram machine, to help users detect abnormalities in a timely manner and assess sudden risks.

Smart watch (High accuracy BP monitoring)

Accurate air pump blood pressure/ECG / Real-time Heart Rate/blood oxygen measurement/Sleep tracking/Heart rate alarm /Respiratory rate/Body temperature measurement/ BT Call

Detailed product description link:

96PRO ECG Smart Band

ECG Holter Monitoring For Screening For Cardiac Arrhythmias

Data collected through ECG electrocardiograms can be intelligently analyzed to detect abnormalities such as sinus rhythm, atrial fibrillation, premature ventricular contractions, and premature atrial contractions in adults, thus helping to identify and predict underlying diseases.

Main Features

ECG,HRV,Heart rate, blood pressure, blood oxygen, 24-hour scientific sleep monitoring, women's menstrual tracking, remote care for relatives and friends, body temperature, blood component monitoring (blood lipid uric acid, etc.),Body composition detection (BMI body fat rate, etc.), stress, medication reminder and other health functions, non-invasive blood sugar 120+ sports modes

Detailed information
